

# HST and QST unit cutting guide

craftcore.

The "finished unit size" measurements in the charts to the right refers to the size of the unit **excluding** seam allowance.

All measurements are assuming a precise 1/4" seam allowance.

**HST:** Each pair of starting squares will yield **two** HST units.

**QST:** Each pair of starting squares will yield **two full** QST units or **four half** QST units.
